

What are the leaf's edges like?

Leaves can have smooth edges

Leaves can have jagged edges

Leaves can have lobed edges

I identify each of the following leaves as having smooth edges, jagged edges, or lobed edges:

Yellow Poplar \_\_\_\_\_

Dogwood \_\_\_\_\_

American Elm \_\_\_\_\_

How are the leaves arranged?

In a circle, or "palmate" like the palm of a hand (fingers sticking out)

Opposite or directly across from each other

Alternate, or alternating every spot along the stem

I identify each of the following arrangements as palmate, opposite, or alternate:

Ash \_\_\_\_\_

Chestnut \_\_\_\_\_

Black Willow \_\_\_\_\_
